## **Work Phases**

### **First Phase | Requirement Gathering & Start Up**

1. The frontend design finalization after discussions.  
*Open to template-based as well as tailor-made designs both.*

### **Second Phase | Website Development**

#### **Step-1: Home Page Development containing the following:**

- Slider
- Carrousel
- Newsletter Subscription Form
- Other Contents (Enriched with images and/or videos)
- Social Pages Creation: FB, Twitter, Instagram, LinkedIn, YouTube
- Other Contents

#### **Step-2: Development of the Contact Page containing the following:**

- Contact Form: Filling this form and submitting it, a visitor would be able to send some message to the client.
- Google Map of the office location
- Call Icon: By clicking this icon, the visitor can be able to call the specified number of the office.
- Other Contents

#### **Step-3: Development of other pages**

- **About Us**
- **Funds**
- **Portfolio**
- **Our Team**
- **News & Insights**
- **Stories**
- **Commentary**
- **Podcasts**
- **Downloads**
- **Careers**
- **RTI Act**
- **FAQ**

### **Third Phase | Control Panel Development**

1. Development of a secure Control Panel for the website from where one can do the following:

1. Edit/Upload the content at some specified segments of several pages like **About Us, Portfolio, News & Insights, Downloads, Careers, RTI Act, Stories, Commentary, Podcasts, FAQ, Contact** etc. as per requirement.
2. Can check the Newsletter Subscriptions.
3. Can see the applications made for different vacancies through the website.
4. Can see the web-traffic analytics.  
..etc.

## **Fourth Phase | Website & Control Panel Integration**

The **Control Panel** is to be integrated to the Website so that the client would be able to use the control panel to access, edit and upload the content of the website.

## **Fifth Phase | Quality Assurance**

The full QA of the **website** and the **control panel**.

## **Sixth Phase | Final Deployment**

Once everything is approved by the client, the website will have to be finally deployed on the remote server.

## **Review Process**

The service provider will provide the client the link of the pages and an id & password to open those pages while the development goes on for taking the feedback.

**Technical Maintenance:** The service provider will have to do the technical maintenance also.

## **Deliverables**

- Code of the frontend
- Code of the backend
- Credentials of the Domain Control Panel
- Credentials of the Hosting Control Panel
